Energetic and driven IT enthusiast, adept at leveraging a diverse skill set honed through the recent completion of a rigorous 3-month bootcamp in frontend development and prior mastery of the MERN stack. With a solid foundation as a seasoned medical technician at Birendra Military Hospital for over 7 years, coupled with academic achievements including dual Master's degrees in Public Administration and Political Science, and the ongoing pursuit of a Bachelor of Legislative Law.

Experience

- 

MERN Stack Developer
Dursikshya Education Network

11/2022 -08/ 2023

- I successfully completed the MERN Stack Development course at Dursikshya Education Network, gaining comprehensive knowledge and practical skills in full-stack web development.
 - Developed and deployed an E-commerce website and Fruit Shop application, showcasing proficiency in front-end and back-end development.
 - Implemented authentication and authorization features using JWT (JSON Web Tokens), enhancing security measures for user data.
 - Maintained thorough documentation for codebase, APIs, and project specifications to facilitate seamless collaboration and future enhancements.
- 

Frontend Developer
PROSHORE NEPAL

11/2023 -01/ 2024

- Completed an intensive 3-months Bootcamp in Frontend Development at Proshore Nepal, mastering cutting-edge technologies and methodologies.
 - Leveraged Git and GitHub for version control, managing branches, pull requests, and resolving merge conflicts effectively.
 - Designed intuitive user interfaces using Figma, focusing on UI/UX principles to deliver a seamless user experience.
 - Utilized Formik and Yup validation for efficient form handling, ensuring data integrity and user experience.
 - Collaborated with team members through effective communication, contributing to successful project completion.
- 

Medical Technician
Shree Birendra Military Hospital

08/2016 -05/ 2023

- Provided critical medical support and care in demanding and high-pressure environments, showcasing resilience, adaptability, and a commitment to service excellence.
 - Extensive knowledge of healthcare information management systems (HIMS).

Skills

- React.JS
 - CSS 3
 - Bootstrap
 - Mongo DB
 - Git & GitHub
 - HTML5
 - Express.JS
 - Postman
 - Redux
- Tailwind CSS
 - UI/UXDesign (Figma)
 - TypeScript
 - JavaScript
 - Material UI
 - React Bootstrap
 - Node.JS
 - Redux Toolkit
 - Formik

Projects

- Developed an e-commerce website using MERN stack, Bootstrap, and Material-UI.
- I created the 'Skillshore' Quiz App during a 3-month Bootcamp, employing Tailwind CSS, TypeScript, RTK Query, Redux, Formik, and Yup validation.
- Executed various small-scale projects for practice, refining skills and exploring new technologies in the realm of web development.
- designed an e-commerce interface with Redux JS and React Bootstrap for an optimal user experience.

Soft Skills

- Effective Communication
- Team Collaboration
- Adaptability
- Analytical Thinking
- Creative
- Problem Solving
- Domain Knowledge in Medical, Legal, Political and Administration
